I was looking for pieces that I could play on the piano along with my husband who is a beginning violinist. The piano parts were overly simplistic, it was actually insulting to me. It is so uninteresting to play, that we haven't really played any of these pieces together. The violin part seems to be more interesting, but they are still very simplistic versions of pieces that could be wonderful as duets.

I think that eventually we will be able to use this more, but need to find a book that both my

beginning piano player and beginning violinist can dive right into. This one was a little over my pianists head.

What a great way to spend quality & fun time with my granddaughter - she on the violin & me on piano! She doesn't even realize she's practicing!!

I bought this so that I could play the piano with my daughter, who is a year into learning the violin. I have a few years of piano instruction from childhood. I found the leveling perfect, with the violin parts ranging from very easy (first half of Canon in D, and Greensleeves) to more challenging (Hall of the Mountain King). All of the songs are wonderfully recognizable for children. The piano parts were all easy but enjoyable to play.

Almost all of these songs are familiar. My son and I played Ode to Joy perfectly the first time through - so easily arranged and yet they sound above a beginner level. Easy, fun, beautiful songs.

After not touching the violin for 40 years, I am now teaching an 11 year old. This level of music was just perfect for him.
