Aristocrats: The Illustrated Companion

Synopsis

A rich social history of the eighteenth century that accompanies a BBC TV series, here is the story of four sisters as threads in the tapestry of a grand era. The daughters of the Second Duke and Duchess of Richmond lived in magnificence as mistresses of some of the most splendid houses in England and Ireland through turbulent times, from the Jacobite Rebellion to the French Revolution. Photographs reveal the spectacular treasure trove of houses, furniture, objects, and paintings that they had commissioned, while stills taken on the location of the TV drama show the actors in their settings and costumes. A historian and best-selling author takes you deep into their opinions, tastes, and habits, describing everything from how and where they bought their furniture and found their gardeners to the details of their lifestyle. A beautiful introduction to a majestic world. 208 pages, 135 color illus., 16 b/w illus., 7 3/4 x 9 1/2. NEW IN PAPERBACK

Customer Reviews

This is a wonderful book! I bought the video from Borders, (39.99) and I LOVED it! Of course, to follow up, I had to but the book. There are two versions of this book, the television companion, which I prefer since it has better pictures, and more pictures in color. Stella Tillyard did a fabulous job of writing this book! This edition, has pictures from the video series, and contains the text telling the stories of the Lennox sisters, their passions, deceptions and timeless love for one another. I can't get enough of this book! If you have not seen this video, buy it! I promise you will watch it again and again! The costumes are fabulous, and the actors LOOK like the real people! It is made by the BBC. I would buy both versions of the books as well. ajw@marinternet.com

The original book was just wonderful; the PBS dramatization was wonderful. I rate this book as fairly good but only if you are interested in the decorative arts and historical clothing of the period or if you saw the PBS program several years ago..

The Aristocrats follows the lives and loves of the 4 Lennox sisters. They were fascinating women who live in interesting times. Both daily life and great events are illustrated in this and the other work by Stella Tillyard. They are well worth reading, multiple times. It adds a level of understanding and enjoyment to watching the mini-series as well.
