Synopsis

This all-new second edition of The Official Scrabble Brand Word-Finder is unique in its organization of officially accepted words, allowing the player to find the highest-scoring word in the shortest time. It reflects additions and deletions from the last three editions of The Official Scrabble Dictionary, and includes a complete list of two-letter words and three-letter words formed from two-letter words, as well as an invaluable and completely new section, "Ten Tips for a Better Game." There are even newly minted words, such as ab, yo, and ed, and a directory of prefixes, suffixes, and plurals. The Official Scrabble Brand Word-Finder is faster than a dictionary and will help you become a Scrabble champion. Scrabble is a trademark of Hasbro in the United States and Canada. 2001 Hasbro. Customer Reviews

This was an extremely frustrating book to read. There were many gaps in the word lists. The two letter word list only contained 85 of the 96 acceptable two letter words. It was missing ag, ex, hm, mm, mo, mu, ne, uh, um, wo, and xu. All of those words are contained in The Official Scrabble Players Dictionary (1995) but not contained in this 1998 edition based on that dictionary. The Three Letter Words from Two Letter Words also had many gaps. The very first two letter word (AA - cindery lava)only listed BAA, and totally missed AAH, AAL, and AAS. This is just one of many, many, omissions through out the book. The only benefit I found in having the book was in finding some words which contain a particular letter in the middle or the end of the word. But even these

lists were incomplete. This book is not worth the investment.

This was an extremely useless book. It lacked many words and was very hard to use. I wish I had read the other reveiw before I bought it. How can this be called "Official" when it is lacking in so much information? For example, DA is listed as a two letter word in the book, but was actually removed from the official dictionary in 1998. And, many words that ARE acceptable in the dictionary are not listed at all. This can really mess a player up. If you want to lose at the game, use this book. Otherwise, just don’t buy it.

This book is a good idea badly executed. The two major flaws are that (1) it is nearly impossible to look things up in it because of a lack of header/footers to tell what section you are in, and (2) it is woefully out-of-date with even the two-letter words being incorrect. I found this out the hard way playing "da" a few too many times.Fix those two things and include the actual 3-word letter list and you’ve got a useful book.

I, too, wish I had read the reviews before buying this useless book. I purchased it thinking it was a different book, an excellent one I recall from the 1980s, that actually had useful lists. In addition to the problems mentioned by other reviewers, I warn that the print in this book is very tiny, jammed together, and somewhat blurred.

I found this book to be close to useless--extremely hard to figure out how it’s supposed to be organized, close to impossible to find anything.

I’ll add to what’s already been written, in case some people are still considering buying it. There’s too many legal words missing. Additionally, the author recommends you memorize all the three-letter words, but he doesn’t actually list them (except those formed from 2-letter words, and of course his 2-letter word list is inaccurate), as if we’re never going to need to make 3-letter words in a game.Don’t let ’Official’ in the title fool you either, this book is not endorsed by the makers of Scrabble or any kind of Scrabble players’ organization.Given what else is out there, this book is to be avoided.

If I’d been able to view this item in person, I would not have bought it. The most obvious problem is that although there’s suppose to be appropriate words listed for EACH letter of the alphabet,

absolutely NOTHING is listed for the A's - and don't try to tell me there are no A words that are approved!! And then there's the E's and the I's with the same problem - there are no words beginning with E or I we presume??!!?? The more I try to use it, the more I find wrong with it (this is the third time I've updated my reveiw!!!) It's not worth the paper it's printed on so save your money. As for the rest of the little book - and yes, I knew it was a paperback so it's suppose to be small, BUT it's also very hard to read the tiny print, even with glasses. I'd expected the print to be a bit larger. And although it's no big deal, the way the book is set up it's not exactly user friendly either, even IF there wasn't so much wrong with it!! I'd complain and return it but having to deal with THAT issue is too time consuming.

Thankyou for great service, not sure how to use yet, with all the business of holidays. Was a great addition to our scrabble game, sure it will be most helpful for our future scrabble games. and dealers can always be trusted for product delivered! Have a Merry Christmas! Carolyn
