Shipping Weight: 1.8 pounds

Average Customer Review: 4.6 out of 5 starsÂ [See all reviewsÂ \(143 customer reviews\)](#)

Best Sellers Rank: #1,017,496 in Books (See Top 100 in Books) #47 inÂ Books > Humor & Entertainment > Radio > Reference #368 inÂ Books > Crafts, Hobbies & Home > Crafts & Hobbies > Radio Operation #404 inÂ Books > Engineering & Transportation > Engineering > Telecommunications & Sensors > Radio

Customer Reviews

I can't believe that this is the 25th edition of this wonderful reference book. I've been buying them ever since the first issue. And each one was worth the upgrade. After all, would you want to search for a TV program with last years TV Guide? Shortwave broadcast stations change their programming, their hours, the language used and even the area of the globe they broadcast to. Without this guide you are just shooting in the dark if you are trying to listen to a particular type of programming. Each year there are reviews of radios, antennas and other listening equipment. Believe me they are not afraid to say what they think and why in their thoughtful and clear reviews. You will know why they liked or didn't like something after reading them. One reason I like to keep my older issues, is so that I can check out the reviews of equipment that I run across on eBay, hamfests, etc. If you are shopping for a world band radio you can save the price of this book on your next radio purchase (new or old). There are insightful articles about countries around the globe and things you can learn by listening to their local radio stations. The 2009 edition has an approximately 15 page article titled "Columbia: Bandits, Ballads, and Broadcasts". Very interesting! Then there are the "Getting Started" articles that educate and make a beginner comfortable. Those articles, plus

the product reviews, take up almost 200 pages this year. After that there is a section titled "What's On Tonight". This gives some recommendations about stations and programs to listen to each hour of the day. Detailed enough to take up about 50 pages in the book. Then there are 60 pages of addresses and contact information of broadcast stations around the world.
