# After The Deluge: Poland-Lithuania And The Second Northern War, 1655-1660 (Cambridge Studies In Early Modern History)

## Synopsis

The Swedish invasion of 1655, known to Poles ever since as the 'Swedish deluge', provoked the political and military collapse of the Polish-Lithuanian Commonwealth, the second-largest state in Europe. Robert Frost examines the reasons for Poland's fall and the conduct of the war by the Polish government, and addresses the crucial question of why, despite widespread recognition of the shortcomings of the political system, subsequent attempts at reform failed. War has long been seen as crucial to the development of more effective systems of government in Europe during the seventeenth century, but studies usually concentrate on states which responded successfully to the challenges. Much can be learned from those that failed, and the paucity of English-language material on this important conflict means that *After the Deluge* will appeal to a broad audience among historians of Poland, Germany, Scandinavia, Russia, and early modern Europe in general.

## Book Information

Paperback: 236 pages

Publisher: Cambridge University Press (March 11, 2004)

Language: English

ISBN-10: 0521544025

ISBN-13: 978-0521544023

## Customer Reviews

I bought the book thinking it dealt with warfare in the XVII century but it is not. The main topic is how The Polish-Lithuanian Commonwealth tried to survive by looking for the right alliance with others powers. These outer diplomatic strategies were obstaculized by the inner political problems. Its interesting and it has showed me the political situation in the Commonwealth, but do not look for warfare. It is not a warfare book.

Excellent book. I learned a lot about Polish history. I found it very interesting and easy to read. I highly recomend this to others.

The box came an entire mess, the books did not come packed properly, books damaged, definitely not at all the total I payed for. Very disappointing.
