Workers' Compensation, Cases And Materials, 6th (American Casebook) (American Casebook Series)

Synopsis

Workers compensation is the most fundamental and successful tort reform of them all. Still, some legislatures have sought to curb what they deem to be overgenerous workers compensation laws, both in terms of liability and benefits, while many courts continue to construe the laws favorably to injured workers. Although this is a text for teaching the basics of workers compensation law, this revision incorporates cases and materials that examine both recent legislation and developing judicial trends.

Fast shipping! Perfect!

Shipping was not a problem. However, book is in horrible shape. Prior owner highlighted nearly the entire book in burgundy highlighter making it nearly impossible to even read the text. Disappointed in the quality of this product. Would NOT recommend this seller!!!
