Customer Reviews

The information in the book is legally sound to the best of my knowledge. I had to purchase it for a class. But this book is rife with typos and grammatical errors to the point of being distracting. I wish these companies would focus more on building a good product rather than forcing a poorly edited new edition out just to drain the back accounts of students.

Great! Right price & rapid delivery of an excellent book!

Great deal and very fast shipping.

Okay, purchased it for class...
