Customer Reviews

If you're crushing Holdem at any stake then I think it's safe to assume you already have the fundamentals down pat. In which case this book won't show you anything you haven't thought of...most likely. But if you're a player: who's new to the game Seasoned losing player If you have minor leaks Or basically a losing player This book will help you pick a leak to develop into a skill and put you on the right track toward becoming a winning player.

Great book for beginners....provides a lot of good info and advice. Highly recommend this book for anyone that's starting out!
