Haiti: State Against Nation (Critical Social Thought)

Synopsis

In the euphoria that followed the departure of Haiti's hated dictator, Jean-Claude Duvalier, most Haitian and foreign analysts treated the regimes of the two Duvaliers, father and son, as a historical nightmare created by the malevolent minds of the leaders and their supporters. Yet the crisis, economic and political, that faces this small Caribbean nation did not begin with the dictatorship, and is far from being solved, despite its departure from the scene. In this fascinating study, Haitian-born Michel-Rolph Trouillot examines the mechanisms through which the Duvaliers ruthlessly won and then held onto power for twenty-nine years. Trouillot's theoretical discussion focuses on the contradictory nature of the peripheral state, analyzing its relative autonomy as a manifestation of the growing disjuncture between state and nation. He discusses in detail two key characteristics of such regimes: the need for a rhetoric of "national unity" coupled with unbridled violence. At the same time, he traces the current crisis from its roots in the nineteenth-century marginalization of the peasantry through the U.S. occupation from 1915 to 1934 and into the present. He ends with a discussion of the post-Duvalier period, which, far from seeing the restoration of civilian-led democracy, has been a period of increasing violence and economic decline.

Customer Reviews

Readers of this book should know that it marked by a violent antipathy towards the "Mulatto" caste of Haiti. The role of the US military in the 20th century history of Haiti is poorly known in the USA, of

course, and it is overwhelmingly destructive; but Trouillot, while eager to vilify Americans in his narration, sheds no light on the details. So be advised that when he describes events in ways that seem willfully malicious, there is understandable grounds for resentment which he never explains adequately. The other aspect of this book I found disturbing is his vilification of the "mulatre" (Mulatto) caste in Haiti, which we learn was the reviled "other" of the Noirist movement of post-WW2 Haiti. The mulatres are an insular group whom Trouillot regards as arrogant, aristocratic, commerce-minded, born to privilege, and ultimately anti-Haitian--or rather, hostile to his own dream of a hyper-regimented, Communist Haiti. Since the Duvaliers were inheritors of the Noirist movement against rule by mulatres, there is a tone in this book reminiscent of apologists for the Interhamawe/"Hutu Power" movement in Rwanda. Trouillot is therefore vehemently defending the Haitians who favored Noirism; but he absolutely does not defend the Duvaliers, who co-opted the Noirist slogans and imposed a ferocious totalitarian kleptocracy. His analysis of how their regime flourished, and the damage it did, is actually quite excellent, although he could have done a much better job explaining exactly what role foreign powers really did have in Haiti and the actual divisions that were left BY the Duvaliers.
